PRODUCT INDEX (320)

HONOURING TRADITION AND INNOVATION.

Domkapa holds a tremendous passion for detailed stitching, presenting several similarities to the haute-couture philosophy focused on the value of a "made by hand".

The long and fruitful path as a private label, full of experience and achievements, inspired the brand's new identity and independence, in 2017.

Domkapa challenges its team to create the perfect daily meeting between design and comfort in each piece of the brand's collections. Our design team works side by side with the production, and this organic synergy allows the creation of innovative designs.

IT IS A DIALOGUE
BETWEEN TWO TOUCHES:
THE ONE THAT CREATES
WITH PASSION AND THE
ONE THAT USES WITH
LOVE.

The Human Touch Collection is a celebration of the invisible thread that connects the artisan to the individual. It explores the moment when the meticulous skill of our craftsmen meets the daily life of those who experience our furniture.

In every stitch of the Jules Pouf, the hand-finished corners of the Alton Armchair, or the sculptural wood of the Elodie Dining Table, lies the soul of the maker.

At Domkapa, "Human Craft" is more than a technique, it is an emotional signature.

We believe that when an artisan's hand shapes a material, it imbues the piece with a warmth that machines cannot replicate.

This collection invites you to feel that presence — to run your hand over the grain of the wood and the softness of the fabrics, finding comfort in the knowledge that every curve was intentional.

It is a dialogue between two touches: the one that creates with passion and the one that uses with love.

This is design with a heartbeat, crafted by humans, for humans.

INSPIRED BY THE SOFT, ROUNDED SHAPES OF 1970'S FURNITURE

INDOOR COLLECTION

GIORGIO MODULAR SOFA

The Giorgio Sofa is a contemporary designer sofa inspired by the soft, rounded shapes of 1970s furniture. Its voluminous silhouette is defined by a seamless connection between the seat and backrest, creating a harmonious and elegant form. The concave curves of both elements provide excellent ergonomic support, ensuring a comfortable and relaxed seating position.

A refined wooden arm detail adds an architectural touch and allows greater flexibility in material and finish combinations, making the Giorgio Sofa a versatile choice for modern living spaces.

ALTON ARMCHAIR

ALTON

COMBINES A SENSE OF
LIGHTNESS WITH SOLID,
ROBUST CONSTRUCTION

The Alton Armchair stands out for its refined wooden structure, which combines a sense of lightness with solid, robust construction. The carefully crafted wood frame defines the armchair's elegant proportions while showcasing high-quality craftsmanship and attention to detail.

A synthetic leather detail wraps around the rear section of the structure, adding visual contrast and a sophisticated finishing touch. The upholstered cushions are enhanced by hand-stitched corner details, emphasising artisanal quality and elevating the overall comfort and aesthetic of this contemporary designer armchair.

A PULLED BUTTON DETAIL ADDS DEPTH AND CHARACTER

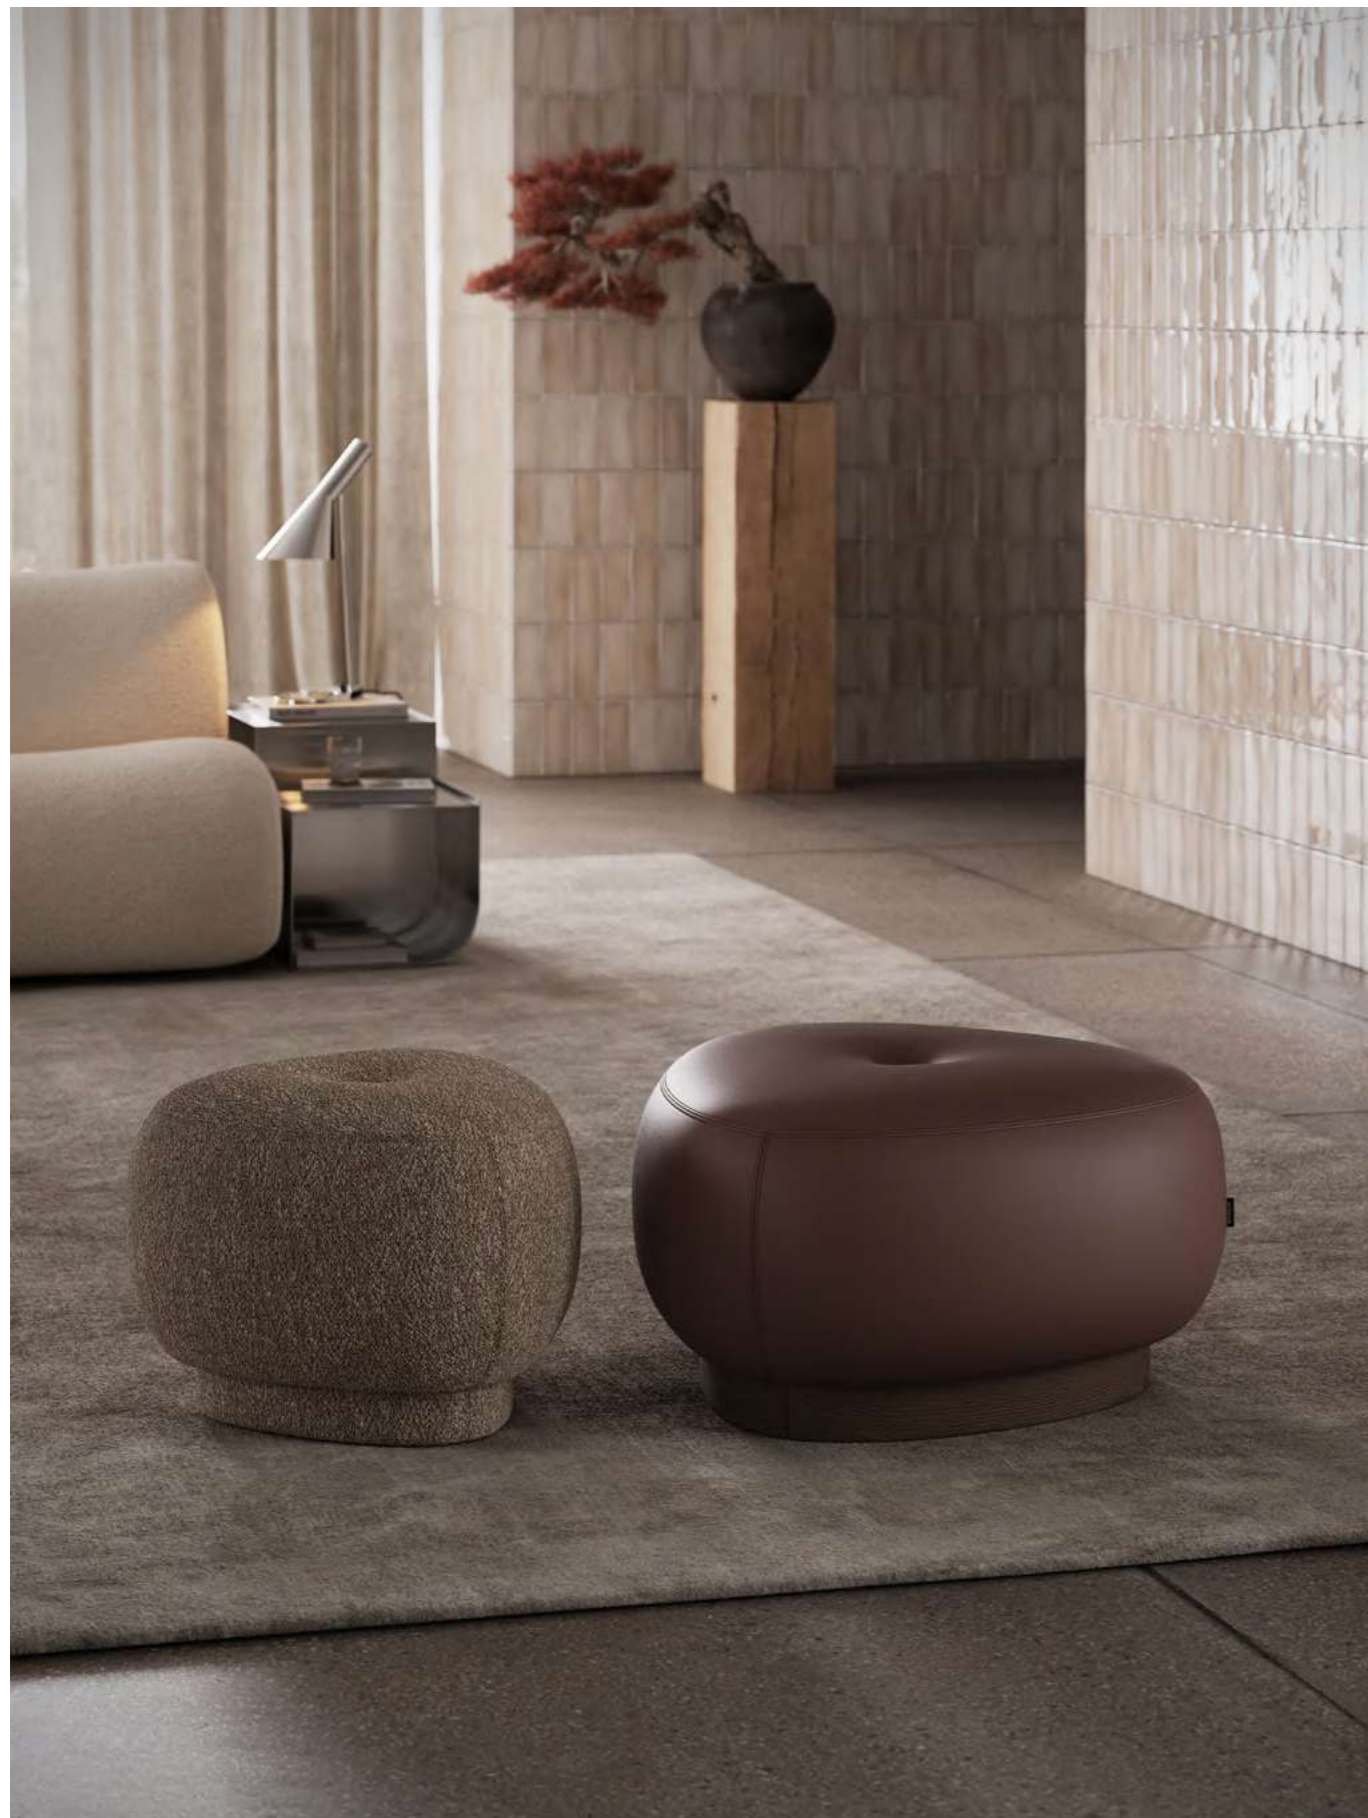

INDOOR COLLECTION

JULES POUF

Defined by a distinctive triangular geometry, the Jules Pouf introduces a bold yet versatile element to contemporary interiors. Designed as a family of poufs, it can be used as a standalone piece or combined in multiple configurations, adapting easily to different spaces and layouts. A pulled button detail adds depth and character, blending a traditional upholstery technique with the pouf's clean, modern form.

REN COFFEE & SIDE TABLE

THE CONTRAST BETWEEN PRONOUNCED CURVES AND SHARP, STRAIGHT ANGLES

REN

Shaped by a refined sheet metal construction, the Ren Table Set explores the contrast between pronounced curves and sharp, straight angles. This dialogue of forms gives the tables a strong architectural presence while maintaining a clean, contemporary aesthetic.

The hollow internal space is designed to function as discreet storage, adding practical value to the sculptural design. Available in two different heights, the Ren tables can be used individually or combined to create dynamic and versatile compositions.

DEFINED BY A CURVED SHELL BACKREST

Defined by a curved shell backrest inspired by Mid-Century design, the Elliot Armchair gently embraces the body, combining visual elegance with ergonomic comfort. Available with a wooden or fully upholstered shell, it offers different stylistic expressions while preserving its iconic silhouette. Refined stitching details enhance the seat and backrest, while a metal base with 360° swivel and reclining mechanism provides adjustable comfort, making it ideal for modern living and lounge spaces.

HARVEY DINING CHAIR

THE VISUAL SEPARATION REDUCES THE PERCEIVED VOLUME

HARVEY

The Harvey Dining Chair features a lightweight and elegant design, ideal for contemporary dining spaces. The visual separation between the seat and the backrest reduces the perceived volume, creating a refined and modern silhouette. The backrest's pronounced curves enhance comfort, while the subtle wooden connection adds warmth and craftsmanship. The voluminous upholstered seat cushion contrasts with the slim supporting structure, resulting in a visually interesting composition that combines comfort, functionality, and timeless design.

DEFINED BY SINUOUS, ORGANIC SHAPES

The Elodie Dining Table is a quiet luxury piece defined by sinuous, organic shapes that blur the line between furniture and sculpture. Its fluid tabletop and sculptural wooden legs create a commanding visual identity without compromising on everyday functionality.

Designed as a harmonious balance of artistic expression and practical use, the Elodie serves as a sophisticated centerpiece, bringing character and timeless elegance to any dining space. This piece is available in 3 different sizes.

BALANCED COMPOSITION THAT FEELS BOTH STABLE AND VISUALLY LIGHT

PONTUS

Characterized by light, minimalist proportions, the Pontus Outdoor Dining Table presents a refined and contemporary presence in outdoor settings. The contrast between the solid base and the slender tabletop creates a balanced composition that feels both stable and visually light.

A subtle gap between the tabletop and the supporting structure introduces depth and precision to the design, enhancing its architectural quality while reinforcing its clean and modern aesthetic.

Gilbert

DESIGNER'S CHOICE

The best part of Gilbert is that you can use them separately or combine them into one ensemble, blending its unique shapes and heights.

With a minimalistic design, Gilbert is a table set that includes three different sizes of tables that can be used as a side or coffee table. The coffee table model features an H-shape wooden base while the side tables present a T-shape base. Gilbert tables are accented by their rounded corners that can be customized in lacquered, wood veneers, and even synthetic leather on the top. The best part of Gilbert table set is that you can use them separately or combine them into one ensemble, blending its unique shapes and heights.
